### NO CLUTCH TO WEAR OUT

Sewing machines may not have changed much in the last 25 years, but the motors that drive them have changed dramatically. The SewQuiet 4000 is a new generation of clutch free motors, with more torque, yet perfectly silent when sitting idle.

### QUIET OPERATION

With the SewQuiet 4000, the noise that is normally associated with sewing motors (clutch and servo) is almost entirely eliminated, creating a more pleasant work environment.

### FEATURES

- Energy savings up to 75%
- Quieter operation
- No clutch to replace
- More torque than clutch motors
- Overload protection
- Simple set up
- Instruction manual with speed settings included

**Smart. Professional. Reliable. Since 1955.**
