### VACUUM & UP AIR FUNCTIONS

Pressing on a regular ironing board eventually leads to a damp ironing surface, making it impossible to get a clean, crisp finish for your garments. The C81 with vacuum and up-air provides the user with the same tools that professionals count on.

### THE RIGHT TOOL FOR THE JOB

The secret to great finishing is to keep the ironing table dry by removing the steam from the fabric. Use vacuum for pressing a shirt or putting in a crease, while up-air (blowing) is great for delicates, removing the risk of leaving an impression or crushing the nap.

### FEATURES

- Tube frame construction
- Fast motor = quick drying
- Quick dry polyester cover set
- Laundry rack
- Folds up quickly
- Optional sleeve arm and bottle holder
